ORACLE CERTIFIED SPECIALIST

EXECUTIVE PROFILE

Results-driven **SIS Delivery Manager and Senior PeopleSoft Techno-Functional Consultant** with nearly 10 years of experience across end-to-end implementation, customization, upgrades, production support, and delivery leadership. Deep specialization in **PeopleSoft Campus Solutions 9.2** across higher education institutions and public sector engagements in Singapore, Australia, the United States, India, and the UAE. Proven leadership track record in steering support teams, translating business needs into strategic project proposals, executing PeopleTools upgrades (8.56 to 8.62), modernizing UI (Classic to Classic Plus / Fluid), and managing enterprise integration platforms.

CORE VALUE PROPOSITION

- **Delivery Leadership & Team Management:** Proven expertise leading SIS support operations, managing multi-disciplinary engineering teams, aligning stakeholders, and converting user needs into clear project proposals.
- **Full Life-Cycle & Upgrade Delivery:** Extensive experience driving PeopleTools upgrades (8.56 to 8.62, PUM updates), greenfield implementations, re-implementations, retrofitting, and hypercare support.
- **Campus Solutions Domain Mastery:** Comprehensive functional & technical depth across Student Admissions, Campus Community, Records & Enrollment, Student Financials, Academic Advisement, Student Self Service, Financial Aid, and SAIP.
- **Enterprise Integrations & Modernization:** Hands-on experience with Integration Broker, REST/SOAP Web Services, AAWS, SAIP, Component Interface, File Layout, Application Engine, and Classic-to-Fluid UI modernizations.

PROFESSIONAL EXPERIENCE

Mohammed Bin Zayed University for Humanities — SIS Delivery Manager

Aug 2026 – Present | Abu Dhabi, UAE (Onsite)

Student Information System (SIS) Operations & Platform Upgrade | Campus Solutions 9.2

- Direct and oversee end-to-end SIS production operations onsite, ensuring seamless platform stability and operational continuity across university departments.
- Lead the major PeopleTools system upgrade from 8.56 to 8.62 using the latest PeopleSoft Update Manager (PUM) image release.
- Manage and mentor the technical support team, delegating workload and guiding execution across system enhancements, defect resolution, and maintenance tasks.
- Collaborate directly with business users and university leadership to translate functional needs into structured PeopleSoft project proposals and execution roadmaps.

Ngee Ann Polytechnic — PeopleSoft Techno-Functional Consultant

Mar 2026 – Jul 2026 | Singapore

NPAL Exam Team Support | Campus Solutions 9.2 | PeopleTools 8.61 / 8.62

- Spearheaded user-experience modernization by converting over 200 self-service components from Classic UI to Classic Plus.
- Designed and deployed dynamic section tiles for newly delivered landing pages on the latest PeopleSoft Update Manager (PUM) release.
- Provided critical technical support for Academic Advisement, diagnosing complex configuration issues and implementing robust remediation.

Deloitte India — Techno-Functional Senior Consultant

Mar 2024 – Feb 2026 | Adelaide University

Oracle PeopleSoft Campus | Campus Solutions 9.2 | PeopleTools 8.61

- Developed automated Campus Application integration programs to seamlessly import student records from heterogeneous third-party platforms.
- Integrated PeopleSoft Campus with core admissions infrastructure leveraging AAWS web services and engineered a custom REST interface with the Simplicity platform.
- Delivered high-impact reporting solutions for admissions, approved student rosters, and interview schedules using Application Engine, Component Interface, File Layout, and BI Publisher.

Oracle India — Senior Analyst

Nov 2022 – Mar 2024 | Australia / USA

TAFE NSW and UoFL | CS Customization & Support | PeopleTools 8.59 / 8.60

- Managed complex production incidents, delivering rapid spot fixes and structured change requests across Campus Solutions modules.
- Monitored, debugged, and optimized real-time integrations connecting PeopleSoft, external systems, and Learning Management Systems (LMS).
- Enhanced TCSI Administration pages, supported BI Publisher/PS Query reporting, and resolved critical student invoice PDF generation bugs.
- Analyzed and debugged legacy COBOL processes to isolate root causes and deliver timely code remediation.

Oracle India — Senior Analyst

Apr 2023 – Nov 2023 | USA

City of El Paso | PeopleSoft Application Upgrade | HR 9.2 | PeopleTools 8.59 / 8.60

- Supported the major enterprise upgrade from PeopleSoft 9.0 to 9.2, analyzing upgrade compare reports and retrofitting custom objects.
- Successfully retrofitted complex customizations across COBOL, SQR, and PeopleTools objects to align with 9.2 standards.

PeopleSoft Implementation | Campus Solutions 9.2 | PeopleTools 8.58 / 8.59

- Architected and built robust data conversion programs migrating legacy mainframe Course Catalog and Student Bio/Demo data into Campus Solutions 9.2.
- Implemented Student Administration Integration Broker (SAIP) to synchronize student data with external boundary applications.
- Developed custom REST web services and delivered complex BI Publisher reports powered by Application Engine and Component Interfaces.

PLITC — PeopleSoft Techno-Functional Consultant**May 2020 – Apr 2021 | Abu Dhabi, UAE***Mohammed Bin Zayed University for Humanities | Campus Solutions Support | PeopleTools 8.56*

- Configured custom Academic Warning rule engines driven by GPA history and built Academic Advisor evaluation dashboards.
- Converted Classic admissions workflows to Fluid UI; customized Student Self Service enrollment, prerequisites, grading, and class features.
- Engineered custom bolt-on modules for instructor surveys and student absence monitoring with automated attendance tracking for tardiness.
- Supported LMS integrations, SOAP web services for Self Service, BI Publisher reports, and L2/L3 production issue troubleshooting.

mcAMDOIS Tech Solutions Pvt. Ltd. — PeopleSoft Technical Consultant**Jul 2017 – Apr 2020 | Abu Dhabi, UAE (Onsite)***Ministry of Presidential Affairs | Re-implementation | Campus Solutions 9.2 | PeopleTools 8.49/8.51/8.56*

- Re-implemented Campus Solutions by consolidating two distinct institutional instances into a single unified governing authority.
- Managed cross-instance data migration, application upgrades from 9.0 to 9.2, and associated PeopleTools upgrades.
- Designed security matrices and coordinated network/firewall integration specifications for external applications across environments.
- Configured Integration Broker and SOAP services to expose student self-service and advisor functions to Liferay portal.
- Built custom bolt-on modules and XML/BI Publisher reports across Student Financials, Admissions, Records, Financial Aid, and Academic Advisement.

mcAMDOIS Tech Solutions Pvt. Ltd. — PeopleSoft Technical Consultant**Oct 2019 – Apr 2020 | PwC Pvt. Ltd., Bangalore***PeopleSoft Tools Upgrade & Support | PeopleTools 8.53 / 8.57*

- Supported PeopleTools upgrade from 8.53 to 8.57 across Campus Solutions, FSCM, HR, and Interaction Hub Portal environments.
- Enhanced custom components, PeopleCode, and Application Engines; built automated interfaces delivering student data to Moodle LMS.

mcAMDOIS Tech Solutions Pvt. Ltd. — PeopleSoft Technical Consultant**Apr 2018 – Feb 2019 | Singapore Management University***Student Integration System | PeopleTools 8.54 / 8.55*

- Customized Student Financials / StarRez housing interfaces, payment email triggers, and Teaching Preference workflows.
- Converted Classic admissions pages to Fluid UI and integrated third-party Simplicity platform using SOAP web services.

CAPI Change Management & Version Control Application | PeopleTools 8.54/8.55/8.56

- Configured and maintained CAPI version control tool across client environments, overseeing migrations, rollbacks, and compare reports.
- Developed core Application Engine processes using File Layout and Component Interface to support versioning patches and defect fixes.
